Hoops.

NEW SKIRT FOR 1865-6.

The Great Invention of the Age is

HOOP SKIRTS.

W. BRADLEY'S New Patent DUPLEX ELLIPTIC
(or double) SPRING SKIRT.

This invention consists of Duplex (or two) Elliptic Springs, which are made of wire drawn tightly, firmly to sustain Extra to Extra, making the Tightest, most flexible, Strongest and Durasteel spring ever made. They sustain Bend or Break, like the Single Springs, and consequently possess their perfect and beautiful shape moreover twice as strong as any Single Spring Skirt that Ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Services, &c., &c. It is also a great convenience, as the skirt can be folded easily in use, to occupy a small place as easily and conveniently as a silk or Muslin Dress.

A Lady having Enjoyed the Pleasure, Comfort and Great Convenience of wearing the Duplex Elliptic Skirt for a few days, will be willing to dispense with their use, nor Children, Men and Young Ladies they are superior to all others.

The Hoops are covered with fine double twisted Thread and will wear twice as long as the single year covering which is used in all common Hoop-skirts. The skirt is bound over every part of the hoop with a band, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs, stone steps, &c., &c., when they are constantly subject to such wear.

All the parts of the skirt are made of Carded Tape, and are true to quality, every part, owing to the weather, the most graceful and perfect Shape possible, and are inconveniences to the lightest, most Irritation, comfortable and economical wear made.

W. BRADLEY & CO., Proprietors of the Invention, and now have a Show-room in 2 Chambers, and 29 & 30 Broadway, New York.
